HOFFMAN BOOTS

"Built to Perform"

From us to you...

At Hoffman Boots, our family-owned business has had the same motto from the beginning: **offer a high quality, functional product at a fair price, and let that be the basis of our company's future.** For five decades now, that is what we at Hoffman's have done.

We know that there are a lot of choices for you, the consumer, to choose from in footwear. That's why we spend extra time and research in offering you the best quality materials we can find in each and every pair of Hoffman's boots. We take pride in knowing that every pair of our Hoffman pacs are made here in Kellogg, Idaho. From our high-quality, industrial-grade, waterproof bottoms that resist cracking and premature rebuilds, to our exceptional form-fitting, oil-tanned leather uppers, you can be sure that the boots you are buying have stood the test of time.

If you ever have a question or suggestion, or if you just need help in choosing the right boot for you, feel free to call. Our friendly staff will gladly take the time to help you select the proper boot. Also, be sure to look at Hoffman's sure-fit guarantee. We want you to feel as confident as we do, so when you place an order with us, you'll receive a boot that meets your high expectations. All of us here at Hoffman's would like to thank you for your interest in our boots.

ARMOR PRO

8" ARMOR PRO *(Calk/Vibram Boot)*

The Armor Pro has quickly become our number one selling calk boot for loggers, foresters and tree planters... and for good reason. The Armor Pro features an additional rubber stark material (bed-liner type) that is bonded directly to the leather upper. This flexible, abrasive resistant material can withstand jagged materials and other objects better than regular leather. The Armor Pro also has a water-resistant membrane to help keep you dry and a full contour cushion insole for additional comfort. A solid toe to heel nylon midsole adds lateral stability and your choice of a calk or Vibram sole provide excellent traction. This boot is a great choice for those looking for a comfortable work boot with outstanding wear. **Note: Once Hoffman's has added a calk sole to this boot, Hoffman's will not warranty the waterproofness of the boot.**

Armor Pro Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 8" tall uppers constructed with 2.8mm full-grain leather.
- Stark rubber coating on leather for highly abrasive environments.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane and rubber coating keeps the moisture out.
- Your Choice of Calk or Vibram FAR slip resistant high-traction sole.
- Non-insulated for cool to warm conditions.

Meindl Calks

6" MEINDL CRUISER *(Calk / Vibram Boot)*

Our new 6" Meindl Cruiser boot is a fantastic boot. Built with a very supportive upper, the 6" Cruiser offers stability and comfort on some of the roughest terrain. The one piece upper design limits the amount of stitching in the boots which helps eliminated the chance for seam failure. The Cruiser features an addition rubber rand that extends around the boot upper to add durability to it. A waterproof bootie is

added that helps keep water out in wet conditions. **Note:** Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Meindl will warranty the waterproofness of the boot.

#C Cruiser (Calk Sole) #V Cruiser (Vibram Sole)

- Water-resistant Liner
- Excellent Lateral Stability
- Rubber Rand for Added Protection
- Available in Calk and Vibram Sole
- Sizes: 7-12 With ½ Sizes, 13 (M/W Width)

FITTING TIPS: Order ½ smaller than usual.

10" MEINDL LOGGER *(Calk / Vibram Boot)*

We at Hoffman's are excited to have the 10" **Meindl Logger Boot** in our line of quality footwear. The German made Meindl boot has a very supportive upper that provides excellent leg support and stability on steep terrain. A **water-resistant bootie** is added to help insure all day dryness and a removable insole adds cushion to your every step. The unique upper design has a minimal amount of stitching. A removable calk sole is added for good traction and long wear. Easy to break in, the **Meindl Logger Boot** is ideal for those looking for a comfortable boot with a waterproof liner. **Note: Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Meindl will warranty the waterproofness of the boot.**

#C Logger (Calk Sole)

#V Logger (Vibram Sole)

- Water-resistant Liner
- Excellent Lateral Stability on Steep Terrain
- Durable Rubber Wrap to Extend Wear
- Available in Calk and Vibram Soles
- Sizes: 6-12 With ½ Sizes, 13 (M/W Width)

FITTING TIPS: Order ½ smaller than usual.

10" INSULATED KOOTENAI *(Calk / Vibram Boot)*

The Meindl Kootenai is the same boot as the Logger but with an added 400 grams of thinsulate insulation. If you're needing a sturdy mountaineering boot with insulation, the Kootenai is a great choice.

Note: Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Meindl will warranty the waterproofness of the boot.

#C Kootenai (Calk Sole)

#V Kootenai (Vibram Sole)

- Insulated w/ 400 Gram Thinsulate
- Water-resistant Liner
- Excellent Lateral Stability on Steep Terrain
- Durable Rubber Wrap to Extend Wear
- Available in Calk and Vibram Soles
- Sizes: 7-12 With ½ Sizes, 13 (M/W Width)

Fitting Tip: Order ½ size smaller than usual

HIKER CALK

If you are looking for a durable lightweight hiking shoe with calk traction, then our Hiker Calk will fit your needs. This high traction Hiker features our replaceable calk sole that combines outstanding traction with the comfort of a hiking boot. A perfect choice for the person who is on the go, whether it be a day hike or a job that requires the best sure foot traction available, our Hiker Calk delivers. An EVA cushioned mid-sole and cushion insole add to the comfort of this lightweight hiker. **Styles may vary depending on availability.**

Note: This hiker is not recommended and should not be worn while operating a chain saw. Check with your local OSHA representative for other work-related use of this lightweight hiker.

#MH

- Lightweight for Less Fatigue
- Replaceable Calks for Excellent Traction
- Not for Use While Operating a Chain Saw
- Sizes: D: 8-12, 13, 14
EE: 8-12, 13

8" PRONGHORN CALK *(Insulated available)*

The NEW Danner Pronghorn is well known in the Northwest for its dependability and ruggedness in the outdoors. By adding a calk sole to this boot, Hoffman's provides you with a lightweight alternative to heavier all-leather calk boots with the added benefit of a waterproof liner. The **Pronghorn Calk** also features a cushion insole, durable midsole and a steel shank for support. A leather/Cordura upper for lightweight durability comes standard. The Pronghorn Calk is also available with **400 grams of insulation** for those wanting to add some warmth to your boots. **Note: Although waterproof failure is rare, neither Hoffman's nor Danner will warranty waterproof failure.**

#ProngCalk (Non-Insuated)

#InsProngCalk (Insulated 400 Gram)

- Waterproof Liner
- Lightweight for easy mobility
- Leather and Cordura Upper
- Replaceable Calks
- Sizes D: 7-12 w/ Half Sizes, 13, 14
EE: 8-12 w/ Half Sizes, 13, 14

GEORGIA *(Calk/Vibram Boot)*

Georgia Boot Company has been making comfortable, durable boots for years and this boot is no exception. We have taken this 8" waterproof boot and added a calk or Vibram sole for those needing outstanding traction. This Georgia boot features a waterproof membrane, 200 grams of Thinsulate, a contour insole and an all-leather upper. We offer this boot in plain toe with your choice of a calk sole or a traditional Vibram lug sole. **Note:** Although this boot features a waterproof membrane, neither Hoffman's nor Georgia will warranty the waterproofing of this boot once a calk sole has been added.

#VGeorgia (Plain Toe Vibram)

#CGeorgia (Plain Toe w/ Calk)

10" TROOPER CALK *(also available insulated)*

This 10" lightweight calk boot contains many excellent features including a water-resistant lining that helps keep feet dry. Replaceable calks and a cushion mid-sole and innersole provide all day comfort. A double layer of 6 ½ oz leather throughout the vamp, triple stitched upper and solid brass hardware are standard features. **Note: Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Danner will warranty the waterproofness of the boot.** Available in non-insulated and insulated styles.

#TRC (non-insulated)

#INSTRC (insulated)

- Insulated and Non-insulated Available
- Water-resistant Liner

- **Insulated:** Sizes 7–12 w/ Half Sizes, 13 (D width); 8–12 w/ Half Sizes (EE width)

10" FALLER II CALK

Hoffman's has been working on a waterproof style leather calk built with comfort, durability yet friendly on the wallet. We feel our new 10" Faller Calk meets all these requirements. The 10" Faller is built with a double layer of 5½ – 6 oz. leather in the vamp area, triple stitched upper and replaceable springheel calk sole. We've added a waterproof Sympatec bootie to the boot to help keep you dry. A Cambrelle inner lining provides comfort while a removable cushion insole provides cushion with every step. Solid brass hardware and a durable heel counter complete this boot.

Note: Although Sympatec failure is rare, Hoffman's will not warranty the waterproofness of this boot.

#Faller Calk

- Waterproof Sympatec Liner
- Triple-Stitched Upper
- Replaceable Calk Molded Sole
- Cushion Insole for Added Comfort
- 5½ – 6 oz. Leather Upper
- E Width Only
- Available Sizes: 7-12 w/ Half Sizes, 13

10" #9000 LEATHER CALK

This lightweight 10" boot features an oil-tanned 7 oz. leather upper for support. An oil-resistant cushion crepe mid-sole provides outstanding comfort and flexibility for easy break-in. An additional cushioned insole and a steel shank give extra comfort and support for all day wear. Our long wearing composition soles feature our replaceable calk bottoms for outstanding traction. Made in the USA. Available in Spring Heel upon request.

#9000

- 7 ½ Ounce Leather Upper
- Durable Waterproof Heel Counter
- Crepe Midsole for Comfort and Easy Break-in
- Available in Spring Heel upon Request
- Replaceable Calks
- Sizes 6-12 w/ Half Sizes, 13, 14 (D width); 6-12 w/ Half Sizes, 13 (E width)

12" #9014 LEATHER CALK

Our New 9014 Spring Heel Calk has some new and improved features added to it. A triple stitched upper now features a heavier grade oil tanned leather that helps prolong the wear of the boot. The double vamp design puts two layers of leather around the foot area for extended protection and durability. The spring heel design features replaceable calks and a sole that is glued, stitched and nailed on. A cushion insole makes this boot a popular design.

#9014 Calk

- 7 Ounce Leather Uppers
- Durable Waterproof Heel Counter
- Sturdy Midsole for Comfort and Easy Break-in
- Spring Heel Sole Design
- Sizes 7-12 w/ Half Sizes, 13, 14 (E width)

7" WOMAN'S QUARRY (Calk / Vibram Boot)

We have had more and more request for a ladies style calk boot. The Danner 7" woman's quarry is a durable boot that provides comfort, a water-resistant membrane and a supportive upper. We have added Hoffman's replaceable calk sole to this boot to provide outstanding traction when needed or choose a Vibram outsole that is also available if needing a less aggressive sole. **Note: Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Danner will warranty the waterproofness of the boot.**

Logging Pacs

THINSULATE® PRO SERIES LOGGER CALK

Quality is always our #1 concern! After working with many rubber companies to find the highest quality bottom available, the choice was made. Our **Thinsulate Pro Series Logger Calk** is the toughest, most durable industrial grade rubber bottom available and is built to take the harshest punishment and keep on performing. This waterproof rubber bottom is constructed with a layer of polyester and polyamid to slow chain saw penetration and eliminate cracking. Our contour leather uppers are made with premium 7 ½ oz. oil-tanned leather and are cut to fit the curvature of your leg. A removable 200 gram Thinsulate/wool liner provides warmth. Heel counter, toe caps and replaceable calks are all standard. Available in steel toe Page 24.

#12C

- Industrial Grade Rebuildable Rubber Bottom
- Replaceable Calks for Easy Maintenance
- Removable Thinsulate/Wool/Cambrelle Liner
- 7 ½ oz. Oil Tanned Leather Uppers
- Rebuildable for Years of Service
- For Mild Winter Conditions
- 10", 12" and 14" heights
- Sizes 6-14 (Whole Sizes Only)

FITTING TIPS: Hoffman Thinsulate® lined pacs tend to run small. Add 1 size to your current shoe size. (i.e.: size 9 or 9½ would order a size 10)

TIMBER II

At Hoffman's, we are always looking for ways to improve the quality of our products. We feel we have done just that with our new Timber II Calk Pac. The Timber II features a top quality NBR and natural rubber bottom that is geared for abrasive environments, which helps prolong the wear of the boot. This compound of rubber is also highly oil- and chemical-resistant and features replaceable calks. A heavy duty oil-tanned leather upper and a removable Thinsulate liner make this boot an instant favorite.

#Timber

- Highly Abrasive-resistant Natural Rubber
- Replaceable Calks for Easy Maintenance
- Rebuildable for Years of Service
- Lightweight Design
- For Mild Winter Conditions
- Removable Thinsulate/Wool/Cambrelle Liner
- Sizes 7-14 (Whole Sizes Only)
- 10", 12" and 14" Heights.

HOFFMAN FELT LOGGER CALK

The Hoffman Felt Logger Calk has been revamped into a sturdier, longer lasting boot. The NEW Hoffman Felt Logger features an improved rubber bottom made with NBR and natural rubber that will prolong the wear on the rubber portion of the boot. A 9mm felt liner provides more warmth than traditional thinsulate style liners. The Hoffman Felt Pac Calk also features removable calks and a triple stitched, 7 ½ oz. leather upper. For those working in extreme colds or those who are less mobile on your job, this boot makes an excellent choice.

#16C

- Replaceable Calks for Easy Maintenance
- Removable 9MM Wool/Felt Liner
- 7 ½ oz. Oil Tanned Leather Uppers
- Rebuildable for Years of Service
- For Colder Winter Conditions
- Sizes 7-14 (Whole Sizes Only)
- 10", 12" and 14" heights.

FITTING TIPS: Hoffman felt pacs run true to size. Whole size order the same. Half size order down (i.e.: 9½ would order 9) unless you have a wide foot.

Authentic Hoffman Pacs

HOFFMAN OUTBACK

The Outback has all the features of our Hoffman Pro Series Pacs plus the addition of our ankle-loc stabilizer straps for added ankle support. Combined with Hoffman's contour fitted leather uppers, the Outback provides the most support found in any pac boot on the market today. This boot is an excellent choice for hunting the steep, snowy terrain of the Rockies or anytime that optimal support and traction is needed. Lace 'em up tight and you'll be amazed at the extra ankle support the Outback will give you.

#130B

- Industrial Grade Rubber Bottom
- Designed for Mild Conditions
- Thinsulate/Wool/Cambrelle Liner
- Steel Shank for Support
- Sizes 6-14 (Whole Sizes Only)

(Predator Extreme)

For professional use, our industrial grade Hoffman Pro-Series Pacs are our best selling boots—and for good reason. Less bulky than traditional felt pac, the Pro-Series is an ideal boot for a wide variety of outdoor activities, weather conditions and terrain. While other companies seem to be lessening the quality in their rubber bottoms, Hoffman's Pro Series waterproof, pure rubber bottom is simply the toughest on the market. The crack-resistant rubber features a steel shank for arch support and a rip-stop material built into the walls of the rubber for unbelievable toughness. Four sole choices are available depending on the conditions you are in.

- Industrial grade rubber bottom
- Designed for mild conditions
- Rebuildable for years of service
- 10", 12" and 14" heights
- Sizes 6–14 (whole sizes only)

**Made in
Kellogg,
Idaho**

DOUBLE INSULATED GUIDE

Hoffman's has revamped the Guide boot to add additional warmth making this pac boot a hunter's necessity. We have added a layer of 200 gram thinsulate into the walls of the rubber to provide additional warmth. Next, a 9mm felt insoles has been inserted into the foot bed to limit the amount of cold coming through the bottom of the boot. An additional 200 gram or optional 400 gram thinsulate liner woven with a 3mm felt and Cambrelle complete the insulation in the Guide. A stout and supportive upper made with premium 7 ½ ounce oil tanned leather and solid brass hardware complete this wonderful boot. The Guide is available in 10", 12" and 14" heights.

#Guide

- Industrial Grade Rubber Bottom
- Designed for Cooler Conditions
- Thinsulate/Wool/Cambrelle Liner
- Steel Shank for Support
- Sizes 6–14 (Whole Sizes Only)
- 10", 12" and 14" heights
- Additional Insulation for Added Warmth

HOFFMAN FELT VOYAGER

CLAW-LUG

REGULAR

tion, we offer the Claw-Lug sole with stabilizing lugs for superior traction. Our **Hoffman Voyager** features our exclusive non-twisting arch guard and reinforced toe cap for longtime wear. We attach a heavy 7 1/2 oz. oil-tanned leather upper that is triple-stitched, glued and sealed to give you the most water-resistant felt pac available. The **Hoffman Felt Voyager** make an excellent choice for use in cold conditions with little or no movement.

#17VOY (Claw-Lug Sole)

#17REG (Regular Sole)

- Removable 9MM Wool/Felt Liner
- 7 1/2 oz. Oil Tanned Leather Uppers
- Rebuildable for Years of Service
- For Colder Winter Conditions
- Sizes 6-14 (Whole Sizes Only)
- 10", 12" and 14" Heights.

HOFFMAN DOUBLE-INSULATED MOUNTAINEER

The Hoffman Double Insulated Mountaineer is our warmest pac boot that we offer. The rubber shell features an addition 200 grams of thinsulate in the walls of the rubber plus an additional 9mm felt insole imbedded in the foot-bed to help prevent cold from seeping through the bottom. A removable 9mm felt liner with a moisture absorbing polypropylene backing is added to complete the insulation in this boot. We've added a heavy 7 1/2 oz. oil tanned leather upper to the rubber shell that conforms to the leg. Solid brass hardware and no non-sense laces complete this boot. The Hoffman Double Insulated Mountaineer is an excellent choice for the outdoorsman needing a warmer boot during periods of cold temperatures or low activity.

#Mount

- Designed for Colder Conditions
- 9MM Wool Felt Liner w/ Polypropylene
- Rebuildable Bottom for Extended Wear
- Additional Insulation for Added Warmth
- Steel Shank for Support
- 10", 12" and 14" Heights
- Sizes 7-14 (Whole Sizes Only)

Rubber Boots

LW5 *(with added cut protection)*

The Hoffman LW5 pull-on style calk boot is a tremendous value, featuring an easy-on, easy-off boot design while still offering a supportive upper. The durable rubber is a mixture of NBR (Nitrile Butadiene) and natural rubber, making the boot very resistant to oils and chemicals, while providing excellent abrasive resistance. The LW5 features 9 layers of polyamide tricod/rubber composition in the front of the boot, providing chainsaw protection equal to a class 2 chainsaw boot. Other features include an air-cushioned heel and added protection for the achilles tendon, ankle and metatarsal. **Note: Although this boot has added chainsaw protection features, it is not certified as a chainsaw-certified boot.**

#LW5 (with added cut protection)

- Natural Rubber combined with NBR for Durable Upper
- Abrasive-Resistant
- 9 Layer Polyamide Tricot Front Protection
- Removable Calk Sole
- Sizes 7-14 (Whole Sizes Only)

12" RUBBER INSULATED CALK

Back by popular demand is an all-rubber lace-up boot with a **3mm felt insulation** added for warmth and comfort. Our Rubber Insulated Calk features a lace-up front, reinforced rubber upper and replaceable calk sole. The 3mm felt insulation adds warmth for those cool fall or winter days. An extra layer of rubber around the toe and heel areas adds stability and longevity to the boot. The Rubber Insulated Calk is the perfect choice for those doing reforestation work and thinning. If you need a waterproof, insulated rubber calk boot at a great price, this is a great choice.

#RIC

- Insulated for Added Warmth
- Lace-up Front for Snug Fit
- Replaceable Calks
- Sizes 6-13 (Whole Sizes Only)

12" RUBBER CALK

Our 12" Rubber Calk features a full lace-up front that provides support and stability. The double layer of rubber in the foot and heel area prolongs the wear of the boot. Handmade from all-natural rubber, this boot also features a steel shank, rust-free eyelets and an arch support for comfort. Replaceable calks were added to provide outstanding traction in wet and snowy conditions.

#4C

- Lace-up Front for Snug Fit
- Steel Shank for Support
- Sizes 6-13 (Whole Sizes Only)

16" XTRATUF NON-INSULATED/INSULATED BOOT

For those who work around hydraulic fluids or chemicals, this 16" neoprene boot offers added protection. This is an industrial grade boot which means extra durability and wear for you. This 100% waterproof pull-on boot comes equipped with your choice of a calk or chevron sole.

INSULATED

HAIX RX 200 *(Calk/Vibram Boot)*

When you have a tough job to do, you need a strong boot. Out in the elements, you can rely on the quality and European craftsmanship which goes into each pair of HAIX® Airpower XR200 chainsaw safety boots. Two zone lacing lets you maximize the fit of your boot, while the ankle support and protection keeps you on your feet on and off the trail. The Airpower XR200 contains minimal seams for more durability as there is less chance of seam failure especially when hiking through rough brush. The rubber sole gives extra grip and slip resistance too or choose a replaceable calk sole for maximum traction. The Haix XR 200 chainsaw safety boots also has built in cut protection to keep feet safer from accidental chainsaw equipment cuts. **Note:** Once Hoffman's has added a calk sole to this boot, neither Hoffman's nor Haix will warranty the waterproofness of the boot.

CALK

FITTING TIPS: Hoffman Thinsulate® lined pacs tend to run small. Add 1 size to your current shoe size. (i.e.: size 9 or 9 ½ would order a size 10)

HOFFMAN FELT STEEL TOE LOGGER

The Hoffman Felt Steel Toe Logger has been revamped into a sturdier, longer lasting boot. The NEW Hoffman Felt Steel Toe Logger features an improved rubber bottom made with NBR and natural rubber that will prolong the wear on the rubber portion of the boot. A 9mm felt liner provides more warmth than traditional thinsulate style liners. The Hoffman Steel toe Felt Pac also features your choice of a calk, claw-lug, or regular sole and a triple stitched 7 ½ oz. leather upper. For those working in cold temperatures or those who are less mobile on your job and need a safety toe, this boot makes an excellent choice.

Hunting/Hiking

6" EXPLORER LIGHT

Lightweight, supportive and all day comfort is everything you could ask for in a high performance hiking boot. The Explorer Light combines premium full grain leather, supportive nylon midsoles, and a high-traction Vibram Masai Outsole for excellent traction. Whether it's multiple days back packing through the Bob Marshall Wilderness or a weekend hike, the Explorer Light will perform to your highest expectations. Made in Italy.

Explorer Light Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 6½" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather.
- Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane keeps the moisture out while allowing the boot to breathe.
- Heavy duty rubber rand adds protection and support to the upper.
- Vibram 1212 Masai High-traction Mountain Sole for excellent traction.
- Non-insulated designed for warmer and mild conditions.

Boots

8" EXPLORER *(Non-Insulated or Insulated)*

The Hoffman Explorer is a lightweight mountaineering boot designed to offer unsurpassed support, ankle stability and comfort. The Explorer's 8" one-piece 2.8-3.0 mm leather uppers, combined with a durable rubber rand, protects your feet from thick underbrush and rocky terrain. A breathable waterproof Sympatec membrane keeps you dry and comfortable when Mother Nature doesn't cooperate. Heavy duty full-length nylon insoles provide all day stability and support without giving up flexibility. Available in both non-insulated and insulated. Made in Italy.

Explorer Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 8" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather. Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane keeps the moisture out while allowing the boot to breath.
- Heavy duty rubber rand adds protection and support to the upper.
- Vibram 1212 Masai High-Traction Mountain Sole for excellent traction
- Non-insulated is designed for mild conditions.

WOMEN'S EXPLORER

This high quality, outdoor hunting boots is built especially for the ladies and constructed with all the same wonderful materials of our men's Explorer boots. A stabilizing 5 ½ mm Nylon midsole adds plenty of stability while allowing some flex in the foot area. Insulation is added to help keep you warm and high quality padded leather upper, water proof membrane and a slip resistant Vibram sole make this boot a must have for the lady hunter.

#WomEXPL

- One-piece vamp construction eliminates seams that can cause discomfort.
- 7" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather. Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.

- Vibram Ice Grip sole for excellent traction
- Woman's Sizes: 7-12 w/ half sizes, 13

8" ARMOR PRO VIBRAM

Created to withstand the rocky terrains of the Dolomite region in Northern Italy, Hoffman's Armor Pro features a stark (bed-liner- type) material that is bonded directly to the leather upper. This flexible, abrasive resistant material can withstand jagged rocks and other objects better than regular leather uppers. Featuring a lightweight one-piece Vibram outsole, the Armor Pro is built for the most demanding outdoor conditions. This boot is a great choice not only for challenging or rigorous hunting conditions, but is also a great work boot.

#ArmorVIB

DARN TOUGH SOCK *Made in U.S.A.*

(w/Lifetime Warranty)

"As the maker and marketer of Darn Tough Socks, we are unique. In an era of outsourcing and corporate takeovers, we are still true to our roots. Family-owned and run, in Vermont, since 1978. In a word, local. Our experience is our reputation and we back it up with our lifetime guarantee. If our All-Weather Performance Socks aren't the most comfortable and durable socks you've ever owned, return them for your money back. This over-the-calf sock has an excellent fit. High density cushioning surrounds entire foot and lower leg. Custom shrink-treated Merino wool and ribbing above the ankle ensures a proper fit. Reinforced heel and toe with elastic support around the arch." Ring-toe construction for a comfortable, invisible seam. Generous sizing: calf stretches 1" more than our traditional sock fit, allowing for a wider range of fit.

Contents: 70% Merino Wool, 26% Nylon, 4% Lycra® Spandex.

#Tough

Sizes: Med(6-8 ½) Lrg.(9-11 ½) XL (12 +)

THE DARN TOUGH STEELY SOCK

The Darn Tough Steely sock has added high density cushioning on the foot base and shin that makes for a supportive feel that people on their feet all day love. A full cushioned toe box supplies added comfort. Fine gauge Merino wool keeps them cool in the summer and warm in the winter. True Seamless construction makes them irresistibly comfortable. Still made in USA. Guaranteed for life. 56% Merino Wool, 41% Nylon 3% Lycra® Spandex

#TONG-L

TONGUE SAVERS

A pair of boot tongues adds padding from lacing, protects the tongue leather and helps shed water from the boot. One pair.

FELT LINERS

The warmest felt liner available. Our top quality 9 mm polypropylene® felt liner wicks away perspiration to keep your feet warm and dry. We recommend an extra set of removable liners for all Hoffman Pacs that will be worn on consecutive days. 10", 12", 14". Sizes 6-15. #FLINE

PEET SHOE DRYER

Start each day with warm, dry feet. The Peet Shoe Dryer is designed for easy use and a lifetime of service. Dry shoes, boots or waders safely overnight. Highly recommended by Hoffman's for use on all footwear products. #PEET

HOFFMAN'S BOOT LACES

Hoffman's industrial strength boot laces reduce eyelet wear, stay tied and last longer. These rugged laces are specially woven to include more strands in a tighter weave. They are cured in natural oils, resin and beeswax to resist fraying, dry rot, heat, chemicals and mildew. Lace Lengths: 72", 96", 108" and 120".
#HLACE

OUR DRESSING IS ESPECIALLY FORMULATED TO PROTECT YOUR INVESTMENT:

- Repels snow and water longer and better
- Resists salt, chemicals, and corrosives
- Restores with natural oils to resist cracking and dry rot
- Allows leather to breathe
- Safe for use with waterproof footwear

HOFFMAN'S PREMIUM BOOT DRESSING

Hoffman's Premium Boot Dressing is highly recommended on all Hoffman boots to protect and preserve leather for years of service. Our dressing contains natural oils, beeswax and propolis that won't harm the leather or clog the pores.
